Dear Parent of a 2009-2010 seventh grade Student:

The TDaP Booster is required by the state of Utah to enter the seventh grade. Please compare the below immunization requirements with your student's record. The Tdap booster is given between the ages of 11-12 and at least 5 years needs to have elapsed since the last DTP.

### **7<sup>th</sup> Grade Immunization Requirements**

- 5 DTP (4 if 4<sup>th</sup> given after 4<sup>th</sup> birthday)
- 4 Polio (3 if 3<sup>rd</sup> given after 4<sup>th</sup> birthday)
- 2 MMR
- 3 Hepatitis B
- 2 Hepatitis A
- 1 Varicella (Chicken Pox or history of disease and no vaccine needed)
- 1 TDaP Booster**

The difference between the 6<sup>th</sup> grade immunization requirements and 7<sup>th</sup> grade requirements is the TDaP Booster. Consult with your health care provider to see if your student needs this immunizations It is advisable for you to schedule time to get this done in early summer to avoid trying to get last minute appointments with doctors in late August. No student will be allowed to start 7<sup>th</sup> grade with out showing proof of receiving this immunization. If you do not have proof of receiving this immunization either on file or with you at registration your student will not be given class and locker assignment at August 18<sup>th</sup> registration.

Exemptions are allowed for medical, personal or religious reasons. Exemption forms may be obtained at the Summit County Health Department. The original form must be hand delivered to the school.

Please call the Ecker Hill Office or Anne Alexander RN with questions.

Thank you,

Greg Proffit  
Principal
