FAX: (435) 645-5609

Dear Parent of a 2019-2020 Park City School District Seventh Grade Student:

The State of Utah has 7<sup>th</sup> grade Immunization requirements as listed below.

### **7<sup>th</sup> Grade Immunization Requirements:**

- 5 DTP (4 if 4<sup>th</sup> given after 4<sup>th</sup> birthday)
- 4 Polio (3 if 3<sup>rd</sup> given after 4<sup>th</sup> birthday)
- 2 MMR
- 3 Hepatitis B
- 2 Hepatitis A
- 2 Varicella (Chicken Pox or history of disease and no vaccine needed)
- 1 TDaP Booster**
- 1 Meningococcal**

Please compare the above listed immunization requirements with your student's record. Upon entering 7<sup>th</sup> grade vaccination requirements increase to include the **TDaP Booster, the Meningococcal and a 2<sup>nd</sup> Varicella**. Please consult with your health care provider to see if your student needs these immunizations. It is advisable for you to schedule time to get this done now to avoid trying to get last minute appointments before school starts. After your child receives these immunizations, bring copy of proof to the Ecker Hill Office and/or to 7<sup>th</sup> grade Registration in August. All Seventh grade students are required by the state of Utah to have proof of receiving these immunizations.

Exemptions are allowed for medical, personal or religious reasons. Exemption forms may be obtained online at [www.immunize-utah.org](http://www.immunize-utah.org) by completing the online module free of charge. Exemptions can also be obtained at the Summit County Health Department thru in person consultation and possible fee. The Exemption form must be signed by parent/guardian and this form must be presented to the school.

Please call the Ecker Hill Office at 645-5610 with questions.

Thank you,

Anne Alexander RN
